

AN ADVANCED LAYER OF ASSET INTELLIGENCE AND SECURITY ANALYTICS

ApexaiQ® is a SaaS based, agentless, and **continuous asset assurance platform** that delivers your IT-risk, obsolescence, maintenance, vulnerability impact, and compliance in a single dashboard measured with your ApexaiQ® risk score.

Gain control of your

Rogue Devices

Orphaned Assets

Shadow IT

Obsolescence

Maintenance

Vulnerabilities

Compliance

Unlock the **power of clean asset data** from all your existing data sources.

1. Near real-time visibility

Enable proactive maintenance, asset optimization, and compliance.

2. Cost optimization

Prevent over-procurement and under-utilization of assets for a competitive edge.

3. Mitigate risks at scale

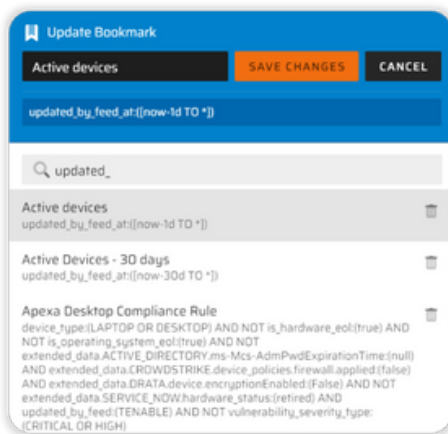

Faster incident response, efficient problem resolution, and smooth change implementation.

4. Make Strategic decisions

Enhance IT service delivery, user satisfaction, and trust in the IT department.

Genius-Level Security and Insights for Your Assets

ApexaiQ streamlines asset information by cleaning, ranking, and structuring the data. This process fosters operational efficiency, reduces costs, sharpens decision-making abilities, and boosts service quality while significantly lowering risks. ApexaiQ provides near real-time information and a provable risk score to safeguard your business.
